

CROWLANDS

DRIVING SCHOOL

Digital Tachograph

ONE **L** OF A DRIVING SCHOOL

Company Information

Crowlands Driving School has specialised in training for the transport industry and private individuals over many years. In 1996 It expanded and moved to new purpose built premises.

Crowlands Driving School offers comprehensive training in all aspects of transport distribution.

It has strong links with local industry and takes trainees from the general public as well as small and large companies.

Crowlands has also developed links with Service personnel by providing high quality resettlement training and subsequent employment placement.

All of our training staff have a huge amount of experience and will always put themselves out to ensure you pass.

Digital Tachograph

With the fitting of Digital Tachographs becoming law in May 2006 it will not be long before you require either a driver card or training.

Or,
As an operator purchasing new vehicles with Digital tachographs fitted.

- We can offer training to meet all your needs for both drivers and managers.
- Carry out training at your company premises or at our fully equipped training centre.
- Out of hours training is available at a small premium.
- Advice on products to purchase in order to download and analysis drivers activities and vehicle data.
- Hire training simulators.
